TO THE BOY OR GIRL WHOSE NAME IS DRAWN FROM THE CORRECT ANSWERS RECEIVED AT THIS OFFICE BY NEXT THURSDAY NIGHT, THE JOURNAL WILL GIVE A SILVER DOLLAR.

## PUZZLE ARMY BADLY ROUTED

Large Number of Answers to Last Week's Pictures Were In-Correct.

MANY "REGULARS" FIND THE PROBLEM TOO HARD FOR THEM—PRIZE DOLLAR AWARDED TO CHARLES CHUNN, OF NORTH BARCELONA STREET.

More incorrect answers were received this week than have come for several months, which indicates that, after all even the Puzzle Army doesn't know everything.

But, remember Puzzlers, it is not so much what you know, as it is what you know how to find out when you need to know it.

And The Journal defies any similar number of boys and girls to beat its Puzzle Army in finding out what it really wishes to know.

So many give "No. 3. George Wythe." "No. 6. Benjamin Franklin." "No. 7. James Madison" and "No. 8. George Washington," that it would require too much space to mention them, but among them are a number of "Puzzlers" who rarely miss any puzzle and a large number of bright new Puzzlers who are most welcome recruits and all are urged to "Try,

try again."

Charles Chunn, 321 North Barcelona street, city is entitled to the dollar this time and can get it by calling for it at The Journal office.

The answers to the puzzles for September 10 were as follows:

No. 1. George Clymer.  
No. 2. Josiah Bartlett.  
No. 3. Button Gwinnett.  
No. 4. John Witherspoon.  
No. 5. Abraham Clark.  
No. 6. Benjamin Rush.  
No. 7. Benjamin Harrison.  
No. 8. George Read.  
No. 9. William Paterson.  
No. 10. Oliver Wolcott.

The following letters are a fair sample of the many received and the editor regrets that all can not be printed.

Dear Mr. Editor: I will once more try my luck on your puzzles as my sister has answered them. We will send there to our sister in Pensacola to carry them to your office. I will close hoping I will get that slippery old dollar. Johnnie White, Grand Ridge, Fla.

Dear Mr. Editor: I hope you will allow another to join your Puzzle Army. I live in Pensacola but I and my two brothers are here on a visit to our grand-mother. Florrie White, Grand Ridge, Fla.

Mr. Editor: I am answering the puzzles for Sunday. I have not sent them in for a long time but I get them nearly every Sunday, except one or two. Hoping to capture that coveted "dollar," I remain yours truly, John Crow, Millview, Fla.

Dear Mr. Editor: This is my first trial with the puzzles, and hope I will get that wonderful dollar that so many are working for. Yours truly, John Crow, Millview, Fla.

Dear Editor: This is my answer. I hope it is O. K. I am 9 years old next birthday and would like to get the dollar. Hoping that I am correct I am yours Ruth Turner, City.

Dear Editor: I am a little Pensacola, but I am in Alabama now. We are always glad to see The Journal. I hope my puzzle is correct for my mother and uncle are in Cal. and I want them to see my name in the list. I am sorry they have the yellow fever in Pensacola and I hope you will not have it. Your little friend, Eoline Fountain, Pine Hill, Ala.

Chester H. Barrow writes: "Dear Editor, Please send me that old dollar. I am in quarantine and need something to keep the 'skeeters off.'" Jeanie D. and Alice K. Dow's correct answers to Sept. 3 puzzles are postmarked "Pensacola, Sept. 8. (Friday) 3:30 P. M." and of course did not reach The Journal in time for Thursday's drawing.

Charles B. Moore, Canabellie, all correct but "No. 8. Franklin."

George P. Floyd, — Ga., all correct but "No. 9. William Paterson."

Eddie Placide send a list so faintly written that not a single word except this name can be deciphered.

Anna Marie Best (or Bird) sends nine correct answers and signs her own name for "No. 10."

Frankie and Bertha Beovich, city.

## HISTORY OF YELLOW FEVER

It Is a Native of the West Indies and Was Imported to America.

HAS APPEARED AS FAR NORTH AS QUEBEC AND IN AT LEAST THIRTY STATES OF THE UNION. NOT THE DREADED SCOURGE IT WAS ONCE CONSIDERED.

The Daytona Gazette-News says: In years gone by almost everyone stood in fear of yellow fever, but now conditions have changed and it is not dreaded by the rank and file as much as small pox, diphtheria, scarlet fever or other contagious diseases.

There are a few cases at Pensacola, more than 500 miles from Daytona, with little prospect of it spreading in the state. Perhaps a few persons will hesitate about coming to Florida just at present but the majority of those who own winter homes in the state understand the conditions and will come during September and October as is the usual custom.

When the season proper opens, it is not anticipated that there will be any falling off in number of tourists. Yellow fever was born in the West Indies.

It has about become naturalized in the United States and Mexico.

It has never visited Asia, Australia or the islands of the Pacific.

It has prevailed in at least six of the republics of South America.

It has appeared as far north as Quebec, Canada.

At least thirty of the states of this Union have suffered from it. Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York and Pennsylvania in the list.

The first authentic record of its results was in Central America in 1595.

In 1666 it destroyed every soul in the island of St. Lucia—over 5,000 people.

In New York it appeared first in 1688. In Boston in 1691 and again in 1693. In Philadelphia 1695, and again

send all correct but "No. 5. Abraham" though they probably intended to add the "Clark" and forgot it.

Vera Whidden, Cantonment, Fla., Philip, Joe and Theresa Whillman, city, all send nicely written lists, all correct but "No. 3. George Wythe."

FEEL IMPENDING DOOM.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's

diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians with relief. Only three bottles of Foley's Kidney Cure made me a well man." W. A. D'Alemberte, Druggist and Apothecary.

in 1866. In that year it also visited Charleston, S. C.

It did not come south to the gulf coast until 1702, appearing at Biloxi, Miss. In 1705 it appeared first in Europe in Cadiz, Spain, and the same year in Mobile, Ala.

Between that date and 1800, it visited Charleston, S. C., seventeen times, New York sixteen times, Boston three times, and New Orleans four times. Nantucket, Catskill, New York, Hartford, Portsmouth, N. H., Albany, N. Y., Salem, Mass., and Woodbury, N. J., have felt its deadly sting.

In 1778 there was a terrible visitation in Philadelphia, New York, Baltimore, Wilmington, Del., Portsmouth, N. H., and other northern cities. In that year in the island of San Domingo, out of 25,000 troops no less than 21,190 died of the disease. 1800 saw the most terrible ravages of the disease in Europe.

Seville, Spain, population 80,568, had 76,488 cases and 14,685 deaths.

Hartford, Boston, New York, Philadelphia and other northern cities and Norfolk, Va., suffered in 1800.

In 1802, of 27,000 cases in San Domingo, there was over 20,000 deaths.

In 1804 Carthage, Spain, lost 14,940 of her population of 33,220 from yellow fever.

In 1805 Quebec had its first and last attack. Out of an English company of troops of fifty-five, only six escaped death.

The last epidemic in New York occurred in 1822, over 50 per cent. of those attacked dying.

Since then no epidemic of this disease has appeared north of Norfolk, Va.

The year 1833 was a horrible one for deaths in Florida, Alabama, Mississippi, Louisiana, Arkansas and Texas. Eight thousand four hundred died in New Orleans.

In 1854 many people died in New Orleans, Norfolk and Portsmouth, Fla., for the first time.

In 1867 it appeared in Jacksonville, Texas and Memphis.

In 1870 there was 49 deaths on Governor's Island, New York, and 18 in Philadelphia, all from yellow fever but the disease did not spread.

In 1871 Florida and Charleston, S. C., suffered.

In 1873 the disease was terrible all along the gulf coast and up the Mississippi Valley. Two thousand died in Memphis.

In 1876 it was epidemic in Savannah.

In 1878 the most horrible epidemic ever known in this country appeared. It swept the gulf coast up the Mississippi Valley to Cairo, Ill.

In Memphis the death rate was one in every three. So malignant was it that domestic animals and wild deer died from it.

This incident ought easily have given the hint, which was not until 1900 definitely discovered, that yellow fever is transmitted and made epidemic by an insect's bite.

In 1888 yellow fever was epidemic in a virulent form in Florida, Jacksonville being the chief center. The disease was quite fatal.

In 1898 there was another severe epidemic involving New Orleans, Ocean Springs, Mobile and other gulf points.
